

# OptiMag

Optimag is a palatable molasses based block enriched with high levels of magnesium. It has been designed for cattle and sheep grazing on cereal crops and other magnesium deficient pastures. The intended use of this supplement is to provide a magnesium component beneficial to the overall health of livestock.

Do not use at the same time as any other selenised fertiliser, prill or product and do not exceed the stated dose or frequency without consulting a veterinarian. Caution: In sheep, liver levels of copper may be quite variable. Consequently, there is always a risk of copper-poisoning (death) occurring following copper supplementation in this species.

**THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL.** Store in a dry place in ambient temperatures out of direct sunlight.

**FIRST AID:** If poisoning occurs, contact a doctor or Poisons Information Centre. **SAFETY INSTRUCTIONS:** Avoid contact with eyes and skin. Avoid inhaling dust. **WITHOLDING PERIOD NIL.**

## ANALYSIS/KG

Energy (DM)	6.94MJ
Molasses	60%
Phosphorus	0.14%
Calcium	3.65%
Salt	5%
Magnesium	10%
Vitamin A	32MIU
Iodine	20mg
Cobalt	15mg
Selenium	6mg
Copper	300mg
Zinc	930mg

## DIRECTIONS

Place sufficient blocks so stock have ready access to blocks. Ensure adequate roughage is available.

RECOMMENDED INTAKE	PER HEAD PER DAY
Beef & Dairy Cattle	150-300g
Sheep	20 - 40g
Goats	20 - 40g

Manufactured in Australia for BHL by Agricon Products
