

OptiPhos

A palatable Molasses, Calcium and Phosphorus block for horses, cattle, sheep and goats.

The intended use is to provide a high phosphorus containing supplement that can be fed to livestock all year round to enhance lactation, muscle function and immune system support.

Do not use at the same time as any other selenised fertiliser, prill or product and do not exceed the stated dose or frequency without consulting a veterinarian.

Caution: In sheep, liver levels of copper may be quite variable. Consequently, there is always a risk of copper poisoning (death) occurring following copper supplementation in this species.
THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL.

Store in a dry place in ambient temperatures out of direct sunlight. *NOTE: Maintain the recommended intake levels for all species to ensure the selenium intake does not exceed 0.01mg/kg of liveweight.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre.
SAFETY INSTRUCTIONS: Avoid contact with eyes & skin. Avoid inhaling dust.
WITHOLDING PERIOD NIL.

ANALYSIS/KG

Energy (DM)	4MJ
Molasses	40%
Phosphorus	5.5%
Calcium	12.6%
Salt	4%
Magnesium	3%
Vitamin A	32MIU
Iodine	50mg
Cobalt	38mg
Selenium	11mg
Copper	500mg
Zinc	1100mg

DIRECTIONS

Place sufficient blocks so stock have ready access to blocks. Ensure adequate roughage is available.

RECOMMENDED INTAKE	PER HEAD PER DAY
*Dairy cows	50 - 100g
*Cattle	100 - 200g
*Horses	200 - 400g
*Sheep & Goats	20 - 40g
